

STONEY TRAIL AGGREGATE RESOURCE

BLV GROUP

Community Meeting Minutes – May 2, 2008

Attendance: Bruce Whale – BLV Group
Wes Koyzan – BIV Group
Nino DeLaurentiis – Alberta Transportation
Jim Mackie – Bearspaw Resident
Joanne MacLean – Young Offenders Center (Safety Committee)
Diana Brown – AUPE
Lorne Milz – Infrastructure
Michelle Roth – Infrastructure

With regrets: Travis Coates (vacation)

Location: Stoney Trail Scale House Time: 10am

A) Updated group on March 28th Meeting Actions:

- Both Crushers have moved deeper in the excavation to reduce noise
- New water truck with capability to spray stockpiles onsite. Weather warming enough to start utilization.
- New Info: One crusher (South Rock) has started working only days
- Additional Monitoring Station ordered

B) Jim

- Noise levels seem to come and go
- Seems better since the crushers went deeper
- Notice dust on snow from last snowfall

C) Young Offenders Center

- Concerns on dust at facility for employees, offenders, and guests
- Noise not an issue
- Couldn't find background dust study online. ACTION REQD
- Discussion on quantifying how much and what's in the particulate. ACTION REQD
- Upgraded filters for the building seem to help. Discussion on what can be done for outside activities.
- Discussion on long term pit phasing plan. Stockpiles on surface only temporary until excavation large enough to move all activities to pit bottom. Action plans likely for the next 12 to 24 months.
- Discussion on use of calcium for roads
- Discussion on watering and sweeping schedules. New water truck onsite and weather warm enough to implement starting next week. ACTION REQD
